

# TORSTAI 24.9.2009

## THE SIXTH SENSE – NEXT STEP IN WIRELESS, Ballroom 2

Pj. Jani Ollikainen, Research Leader, Nokia

### 15:30 The Present and the future of RFID

Pekka Pursula, Dr., VTT Technical Research Centre of Finland

Radio Frequency Identification (RFID) is a low-power radio protocol that is widely utilized e.g. for access control. In this presentation, we take a look on the technology and its present applications. The future is glimpsed by overviewing the research carried out today.
